In the Claims

Please amend the claims by replacing all prior listings of claims with the listing of claims below pursuant to 37 C.F.R. §1.121:

Listing of the Claims:

1-5. (Canceled)

6. (Currently Amended) A method of treating a thrombotic disorder in a subject an individual in need thereof comprising administering a therapeutically effective amount of an anti-human tumor necrosis factor alpha monoclonal antibody or antigen-binding fragment thereof to the individual subject, wherein the thrombotic disorder is selected from the group consisting of: a thromboembolic disorder, an ischemic event, stroke, acute myocardial infarction, deep vein thrombosis and thrombophlebitis.

7-8. (Canceled)

- 9. (Previously Presented) The method of claim 6, wherein the antibody is selected from the group consisting of a humanized antibody and a resurfaced antibody or antigen-binding fragment thereof.
- 10. (Previously Presented) The method of claim 6, wherein the antibody binds to an epitope included in amino acid residues of about 87-108 (SEQ ID NO:1) or about 59-80 (SEQ ID NO:2) of hTNF α .
- 11. (Canceled)
- 12. (Previously Presented) The method of claim 6, wherein the antibody is a chimeric antibody, said chimeric antibody comprising (a) a non-human variable region specific for TNF or an antigen-binding portion thereof and (b) a human constant region.
- 13. (Previously Presented) The method of claim 12, wherein the

chimeric antibody binds to an epitope included in amino acid residues of about 87-108 (SEQ ID NO:1) or about 59-80 (SEQ ID NO:2) of hTNF α .

- 14. (Previously Presented) The method of claim 12, wherein the chimeric antibody is monoclonal antibody cA2.
- 15. (Previously Presented) The method of claim 12, wherein the chimeric antibody competitively inhibits binding of $TNF\alpha$ to monoclonal antibody cA2.

16-50. (Canceled)

51. (Currently Amended) The method of claim 6, A method of treating a thrombotic disorder in an individual in need thereof comprising administering a therapeutically effective amount of an anti-human tumor necrosis factor alpha monoclonal antibody or antigen-binding fragment thereof to the individual, wherein the thrombotic disorder thrombosis is deep vein thrombosis.

52. (Canceled)

53. (Currently Amended) The method of claim 6 wherein the thrombotic disorder is a cardiovascular disorder selected from the group consisting of: acute myocardial infarction, deep vein thrombosis, and or thrombophlebitis.
